SUMMARY

Final-year Information Technology student passionate about building scalable and user-centric software solutions. Skilled in Java, Spring Boot, RESTful API development, and full-stack application. Enthusiastic about problem-solving, software engineering best practices, and continuously learning emerging technologies to deliver impactful digital solutions.

EDUCATION

Sri Krishna College of Technology

Coimbatore, India

Bachelor of Technology – Information Technology

2023 – 2027

– CGPA: 8.03 / 10.0

EXPERIENCE

Web Development Intern

2025

Walinn's Innovations

Coimbatore, India

- Built responsive web components using HTML, CSS as part of a cross-functional development team.
- Participated in code reviews, debugging sessions, and deployment workflows using Git version control.
- Contributed to UI improvements that enhanced usability and visual consistency across the application.

PROJECTS

HappyCart – Full-Stack E-Commerce Platform | *Spring Boot, React, MongoDB, Railway, Vercel* 2025

- Architected and deployed a full-stack e-commerce application with product catalog, user authentication, and cart management features.
- Built a RESTful backend using Spring Boot and Java with JWT-based authentication; persisted data in MongoDB Atlas with structured schema design.
- Developed a dynamic React frontend with category filtering, real-time cart updates, and mobile-responsive UI deployed on Vercel.
- Containerized the backend with Docker and deployed on Railway; configured CORS, environment variables, and CI/CD for seamless cross-origin connectivity.

Aviation – Flight Ticket Booking Application | *React, JavaScript, JSON Server, REST API* 2025

- Built a full-stack flight booking web app with search, booking, scheduling, seat selection, and ticket generation features.
- Developed RESTful backend using JSON Server; implemented booking context for global state management across pages.
- Designed modular React component architecture including FlightSearchCard, FlightDetailCard, and TicketPage.
- Integrated booking history, support, and settings pages; bundled and served the app using Parcel.

TECHNICAL SKILLS

Languages: Java, SQL

Backend: Spring Boot, RESTful APIs, Microservices

Frontend: HTML5, CSS3

Databases: MySQL

Cloud & DevOps: AWS (EC2, S3), CI/CD

Tools: Git, GitHub, Maven, Postman, IntelliJ IDEA, VS Code

Concepts: OOP, Data Structures & Algorithms, DBMS

Data & Analytics: Power BI, Microsoft Excel, Data Visualization

CERTIFICATIONS

Oracle Cloud Infrastructure – AI Foundations Associate	<i>Oracle</i>
Cloud Technical Essentials	<i>AWS / Coursera</i>
Introduction to Generative AI	<i>Google Cloud / Coursera</i>
Introduction to Industry 4.0 and Industrial IoT	<i>NPTEL</i>
UI/UX Design with Figma	<i>Infosys Springboard</i>

LEADERSHIP & ACTIVITIES

Department Executive – Information Technology Dept., SKCT	2025 – Present
– Organizing coding events, technical workshops, and hackathons for 200+ IT students. – Collaborating with faculty to coordinate seminars, technical competitions, and student initiatives.	
Event Coordinator – AVANTAA Technical Fest	2024
– Led a 10-member team to coordinate logistics and execution of a technical event with 100+ participants.	
Participant – Smart India Hackathon (SIH)	2024, 2025
– Competed in India’s national-level hackathon; contributed to problem analysis, prototyping, and team presentations. Expressed innovative ideas addressing real-world problem statements, presenting end-to-end solutions to a panel of faculty evaluators. Demonstrated strong problem-solving, teamwork, and communication skills through collaborative ideation and prototype walkthroughs.
